

17-déc		Looking for pertinent information on interdisciplinarity in the field of environment management (links between science and society)
09:30	09:45	Round table (short self presentation) (JP Féral , IMBE)
09:45	10:15	Short presentation of CIGESMED and aim of the working group / agreement about the how to do (JP Féral , IMBE)
10:15	10:25	The Barcelona Convention as a framework for Mediterranean coastal management? (S. Serre , MSFD)
10:25	10:40	Discussion moderated by S. Serre & P. Vouriot , MSFD
10:40	11:00	Coffee break
11:00	11:25	Econometrics and littoral management : introductory talk (D. Ami , GREQAM) and open discussion
11:25	11:35	Implementation of the MedDECC network (J. Guiot MedECC)
11:35	11:50	Discussion about mechanism of on-going support for decision-makers and the general public on the basis of available scientific information and on-going research (discussion moderated by J. Guiot , MedECC)
11:50	12:15	Law and littoral management (introductory talk by C. Leboeuf , Droit Maritime) and open discussion
12:15	13:00	lunch
13:00	13:10	The Plan Bleu, an observatory of sustainable development in the Mediterranean - (D.Sauzade , Plan Bleu)
13:10	13:25	Discussion (moderated by D. Sauzade) on how Plan Bleu succeeded (or not) to integrate different disciplines - advices for a future project
13:25	16:15	Social and human sciences inputs for the valuation and teh management of marine ecosystems (introductory talk by H. Thébaut , IFREMER and open discussion)
16:15	16:45	Coffee break
16:45	17:05	Pertinence / relevance of indicators (quality of coastal waters and habitats) (H. Thébaut , IFREMER & R. David , IMBE)
17:05	17:30	Scientific expertise and associative movement at a Mediterranean scale (M. Lootvoet , airclimat)
18-déc		Examples of interdisciplinary work mixing ecology with sociology or economics... Leading the reflection to interdisciplinary line of research
09:30	09:50	Introduction to the workshop : Basics about coralligenous habitats and the ecosystem service cascade as presented by Potschin and Haynes-Young (L. Thierry de Ville d'Avray , IMBE/GREQAM)
09:50	10:50	Workshop : Construction of the ecosystem services cascade related to coralligenous habitats, with pressures & management measures related (moderated by L. Tschanz , IMBE and L. Thierry de Ville d'Avray , IMBE/GREQAM)
10:50	11:10	Coffee break
11:10	12:15	Workshop (continued) : Construction of the ecosystem services cascade related to coralligenous habitats, with pressures & management measures related (moderated by L. Tschanz , IMBE and L. Thierry de Ville d'Avray , IMBE/GREQAM)
12:15	13:00	Lunch
13:00	13:20	A methodology from the socio-ecology used to address the current and future use of ecosystems (L. Tschanz , IMBE)
13:20	15:30	Workshop : Brainstorming on interdisciplinary lines of research to enhance and manage marine ecosystems (moderated by L. Tschanz , IMBE & L. Thierry de Ville d'Avray , IMBE/GREQAM & R David , IMBE)
15:30	15:45	General discussion
15:45		Coffee break - End of the meeting
